1. Reference is made to your memorandum OGC 75-2998 dated 19 August 1975 (DDA 75-3957) advising that [] of the FBI has requested that the Agency provide the finger and palm prints of five individuals. Fingerprints are not available in Office of Security records on the five individuals, and the Office of Security does not take palm prints on employees.

2. It is presumed, however, that the fingerprints of interest are available in FBI records and that only specific date and place of birth information concerning the individuals of interest is necessary for the FBI to identify the appropriate fingerprint cards. The following is date and place of birth information concerning the individuals considered identical to the five cited individuals of interest to the FBI. All of the individuals are current Agency employees.

3. As indicated above, it is presumed that the FBI has the original fingerprint cards which are routinely furnished to the FBI for the necessary check on all Agency employees when they enter on duty. If a fingerprint card is not available in FBI records or palm prints are considered necessary, it is felt the desired prints should be obtained by an FBI representative. The fingerprint facilities of the Identification Section, Physical Security Division, Office of Security, will be made available at the convenience of the interested FBI representative.
